State Management:	Redux, Context API, React Query
Backend (Basic):	NodeJS, ExpressJS, REST APIs
Version Control & Tools:	Git, GitHub, VS Code, Postman
Other:	Responsive Design, API Integration, Problem-Solving, Team Collaboration

Professional Experience

Frontend Developer – Freelance (2021 - Present)

- Built and deployed interactive, scalable web applications using Next.js and ReactJS.
- Developed responsive UI components and implemented modern design principles for accessibility and performance.
- Collaborated with backend developers to integrate RESTful APIs and manage application state efficiently.
- Worked on performance optimization, lazy loading, and SEO best practices in Next.js projects.
- Led several client projects, ensuring on-time delivery and pixel-perfect design implementation.

Projects

Animax98 (Frontend Development) – Animation-focused platform built with ReactJS and API integrations.

Gios Store – Modern e-commerce platform developed using ReactJS and NodeJS.

Xarme – Mini Telegram clone built with NextJS and TailwindCSS.

MFA (Ministry of Foreign Affairs) – Government web platform developed using NextJS.

Skillfinder – Skill discovery application leveraging VueJS for frontend components.

Education

Nnamdi Azikiwe University (Unizik)

BSc Industrial Chemistry

Graduated with a strong foundation in analytical problem-solving, critical thinking, and applied technology.
